Create a Home Inventory

A list of your belongings makes it easier to file a claim should you ever need to.

1. Make a List of items (by room, by category, etc). Don't forget clothes and items in storage.
2. Use an inventory app. Many insurance providers now have these.
3. Take pictures of items and whole rooms.
4. Describe each item you record. Make/model#; serial #; place/date of purchase, receipt, etc- whatever you can.
5. Check your coverage for "big ticket" items. You may need to add or adjust your coverage.
6. KEEP GOING. This is a long process, but if you ever need it, you will be thankful you put in the time. If you can't finish it all, remember an incomplete inventory is better than nothing.
7. Once the inventory is done, store it in a safe place. If digital, make sure to back it up to the cloud.
